Notice: This map is not intended as a legal depiction of public or private land boundaries.

PLEASE READ

Land management boundaries shown on this map do not imply that the U.S. Government guarantees title to or a claim of any area. Title and other legal matters are determined and established by the U.S. Government. Management boundaries may change over time as new information is available. This map is for planning purposes only. For detailed information consult the Management Plan or contact your nearest Field Office.

SOURCE INFORMATION

This map displays land status data that were originally collected or derived by the Fish and Wildlife Service, Department of the Interior, U.S. Government, and is maintained by the Montana Fish, Wildlife and Parks State Land Management Program and the U.S. Geological Survey. The data was provided to the U.S. Fish and Wildlife Service as one of the intermediate products in the implementation of the Pacific Northwest Great Forest Land Management Program 1992-99. The accuracy of this product has not been verified. The suitability of data for a particular purpose should be determined by the user. The land status data displayed in this map may not be complete and is subject to errors displayed here. For the map to be useful, the land status data should be verified independently if it is to be used for any purpose. The data displayed here is subject to errors displayed here. For the map to be useful, the land status data should be verified independently if it is to be used for any purpose.
