Source information:

This map displays land status information contained in a statewide database for lands managed by federal agencies and the State of Montana. Most of the public lands information was originally digitized by the U.S. Bureau of Land Management (BLM) and the U.S. Forest Service (USDA Forest Service).

The boundaries and locations shown on this map were obtained from multiple sources. These data are accurate to the best knowledge of the Montana Natural Heritage Program and should be used for planning, resource management, and educational purposes.

For questions about the data displayed here or to use these maps, please contact the Montana Natural Heritage Program at (406) 444-3727 or mnhp@fgl.mt.gov.
