The land status data displayed in this map viewer may not be complete. Not all legend items may appear on this map.

Map features, including conservation easements, do not imply public access to any lands. The land management and jurisdictional data shown on this map do not indicate the legal boundaries of public land or water bodies. All data was created and processed by the University of Montana, Wildlife Spatial Analysis Program and was not based on any data supplied by Federal or State agencies.

For questions about the data displayed here or to report errors, please contact the Montana Ecosystem and Natural Heritage Program at 406-444-6203 or montana@enhp.org.

Notice: This map is not intended as a legal depiction of public or private land boundaries.

Source Information:
This map displays land status information as a reference tool and supplement to other land status products. The map viewer is not intended to be a reference for determining public or private land status. The data layer was created in April 2012 for presentation at the Montana Chapter of The Wildlife Society. Thesymbols used in the map display were created by the Montana Ecosystem and Natural Heritage Program.
