 This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

**SOURCES/ACKNOWLEDGMENTS**  
 The private land data were developed for the Montana Cadastre Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDOI BLM and private enterprise. Lands reported on this map represent single ownership of contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.  
 The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:50,000 scale BLM Surface Management Scale maps. Additional information, corrections and updates (especially for BLM lands and private lands) were added by the University of Montana, Wildlife Survey, and the DOR in 1996-1998. Since 1998, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.  
 Map produced August 2009 with ownership data current as of June 3, 2009.
