NOTES:
Not all feature types may appear on this map.
Features shown on this map do not imply public access to any lands.
The land status data displayed on this map may not be complete and may contain errors in boundary locations and/or coding.
DISCLAIMER:
The MT Natural Heritage Program, MT State Library, MT Dept. of Administration and MT Dept. of Revenue make no representations or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assumes no responsibility for any errors on these maps. Furthermore, the above listed agencies will not be liable for any damages incurred as a result of errors depicted here. The ownership boundaries displayed on this map are not based on land survey data and are not a substitute for property surveys.

This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

ACKNOWLEDGEMENTS / SOURCES:

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated 87-3-209, which directs NRIS to "...develop and maintain a land ownership map for management agencies... to develop accurate land ownership maps...in the State."

The public land data in from the MT Natural Heritage Program's land stewardship data collection and maintenance. Much of this data was originally digitized by the Montana Land Information Center (MLIC) in support of the Montana Cadastral Mapping effort (see Battle for any damages incurred as a result of errors depicted here. The ownership boundaries displayed on this map are not based on land survey data and are not a substitute for property surveys.

This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

status maps. Additional information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, Wildlife Spatial Analysis Unit, during 1998/1999. Since 1999, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Park areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data provided by the managing agency and, in most cases, have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. The project is a cooperative effort between the Montana State Library, Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USGS BLM and private enterprise. Lands depicted on this map represent single ownership of contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral base and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24000 or smaller.

Map produced September 2004 with ownership data current as of July 2004.
