NOTES:
Not all legend items may appear on this map.
Features shown on this map do not imply public access to any lands.
The MT State Library makes no guarantee that this data is complete and has current access to boundary locations and/or ownership.

DISCLAIMERS:
The MT Natural Heritage Program, MT State Library, MT Dept. of Administration and MT Dept. of Revenue make no representations or warranties regarding the accuracy of the data or the suitability of the data compiled in these maps and assumes no responsibility for the suitability of these data for a particular purpose. These agencies will not be liable for any damages incurred as a result of errors displayed here. The ownership boundaries displayed on this map are not based on land survey data and are not a substitute for property surveys.

This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

ACKNOWLEDGEMENTS / SOURCES:

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the MT Natural Heritage Program (NHP), which is housed in the MT State Library in response to Montana Code Annotated 87-5-208, which directs the FWP to "...work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps...in the State".

The public land data is from the MT Natural Heritage Program's land stewardship data collection and maintenance. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management status maps. Additional information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, Wildlife Spatial Analysis Unit, during 1989-1995. Since 1995, the Montana Natural Heritage Program has made numerous updates and corrections (especially for private lands) using digital data from the BLM, USFS, NRCS, Farm Service Area, and conservation easements. These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDI BLM and private enterprise. Lands displayed on this map represent single ownership of contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24000 or smaller.

Map produced September 2004 with ownership data current as of July 2004.
