NOTES:
Not all legend items may appear on this map.
Private lands may be inaccessible for public access to any lands.
The land status data displayed on this map may not be complete and may contain errors in boundary locations and/or coding.

DISCLAIMERS:
The MT Natural Heritage Program, MT State Library, MT Dept. of Fish, Wildlife, and Parks, and the Montana Natural Resource Information System or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assumes no responsibility for the suitability of these data for a particular purpose. These agencies will not be liable for any damages incurred as a result of errors displayed here. The ownership boundaries displayed on this map are not based on land survey data and are not a substitute for property surveys.
The land ownership data displayed on this map was primarily derived from several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) at the MT State Library, in response to Montana Code Annotated 87-5-308, which directs the FWP to "... work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps...in the State."

The public land data is from the MT Natural Heritage Program land ownership data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management maps. Additional information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, Missoula, Geographic Analysis Unit, during 1991-1995. Since 1995, the data has periodically been updated by NRIS and FWP staff using various sources, including digital data from tribal lands, Montana Fish, Wildlife & Park areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDA BLM and private enterprise. Lands depicted on this map represent single ownership of contiguous parcels as of January 2000. The DOR maintains the tax roll for each cadastral factor and the DOR maintains the private ownership information.

The base scale for the public land/wildlife data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24000 or smaller.

Map produced August 2000 with ownership data current as of August 2000.
