The land status data displayed on this map may not be complete and may contain errors in boundary location and/or coding.

DISCLAIMERS:
The MT Natural Heritage Program, MT State Library, MT Dept. of Administration and MT Dept. of Revenue make no representations or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assumes no responsibility for the suitability of these data for a particular purpose. These agencies shall not be liable for any damages incurred as a result of errors displayed here. The boundary data displayed on this map are intended to be based on land survey data and are not adequate for boundary surveys.
This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library. In response to Montana Code Annotated 87-3-309, which directs the FWP to "...work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps...In the State.'

The public land data is from the MT National Heritage Program land stewardship data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates from BLM, US Forest Service, and private landowners collected by the Montana Natural Heritage Program, during 1995-1999. Since 1999, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, wildlife & Park areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDA-BLM and private enterprise. Land data displays ownership and parcel boundaries of contiguous parcels at a scale based on data source. The DOR maintains the cadastral layer and the DOR maintains the private ownership information.

The base scale for the public data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:12-24000 or smaller.

Map produced August 2006 with ownership data current as of August 2006.
