NOTES:
Not all tagged items may appear on the map.
Roads shown on the map do not imply public access to any lands.
The land status data displayed on the map may not be complete and may contain errors in boundary locations and/or coding.

DISCLAIMERS:
The MT Natural Heritage Program, MT State Library, MT Dept. of Fish, Wildlife, and Parks, and the Montana Natural Resource Information System make no warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assumes no responsibility for the suitability of these data for a particular purpose. These agencies will not be liable for any damages incurred as a result of errors displayed here. Land ownership and land status information is primarily based on land survey data and are not a substitute for property surveys. This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDA NRCS and private enterprise. DOR maintains the tax assessment records. Ownership is mapped to contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24000 or smaller.

Map produced August 2005 with ownership data current as of August 2005.

SOURCES / ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) at the MT State Library. In response to Montana Code Annotated 87-1-208, which directs the FWP to "... work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps... in the State."

The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates (especially for tribal lands bordering the Montana reservations) were provided by the Montana Land Analysis Unit, during 1995-1999. Since 1999, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.
