NOTES:
Not all legend items may appear on this map.
Features shown on this map do not imply public access to any lands.
Some features may be inaccurately placed, due to inherent variables and may contain errors in boundary location and/or coding.

DISCLAIMERS:
The MT Natural Heritage Program, MT State Library, MT Dept. of Administration and MT Dept. of Revenue make no representations or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assumes no responsibility for any decisions made or actions taken by persons relying on this data. We will not be liable for any damages incurred as a result of errors disclosed here. The ownership boundaries displayed on the map are not based on land survey data and are not a substitute for property surveys. This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGEMENTS

This map was produced jointly by and with funds between the MT Dept. of Fish, Wildlife, and Parks and the Montana Natural Heritage Program, Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated 87-5-308, which directs the FWP to "...work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps...in the State".

The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) in the early 1980's from the BLM's 1:100,000 scale surface status maps. Additional information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, wildlife Spatial Analysis Unit, during 1990-1995. Since 1996, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Park, wildlife & Park areas, US Fish & Wildlife &conslia areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local, governments, USDI BLM and private enterprise. Lands depicted on this map represent single ownership of contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24000 or smaller.

Map produced August 2005 with ownership data current as of August 2005.
