SOURCES / ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) at the MT State Library, in response to Montana Code Annotated 87-1-209, which directs the FWP to "... work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps... in the State".

The public land data is from the MT Natural Heritage Program and is compiled from the Public Land Survey System (PLSS) and the Montana Surface Ownership and Management (BLM), from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, Wildlife Spatial Analysis Unit, during 1999-1900. Since 1999, the Montana Natural Heritage Program, MT Natural Resource Information System, and MT Dept. of Fish, Wildlife and Parks have updated tribal lands, Montana Fish, Wildlife & Park areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDA BLM and private enterprises. Lands depicted on this map represent single ownership of contiguous parcels as of the date indicated. Lands with multiple ownership are not delineated. Nor are the BLM maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24000 or smaller.

Map produced July 2006 with ownership data current as of July 2006.
