NOTES:
Not all legend items may appear on this map.
Features shown on this map do not imply public access to any lands.
The land status data displayed on this map may not be complete and should not be relied upon for boundary locations and/or coding.

DISCLAIMERS:
The MT Natural Heritage Program, MT State Library, MT Dept. of Administration and MT Dept. of Revenue make no representations or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assumes no responsibility for the suitability of these data for a particular purpose. These agencies shall not be liable for any damages resulting from the use of data described here. The ownership boundaries displayed on this map are not based on land survey data and are not a substitute for property surveys.
The map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (MRIS) of the MT State Library. Numerous sources for MRIS data are listed on the left, which describes the FWP part... as to corporately with all state and federal land management agencies... to develop accurate land ownership maps...in the State.

The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information from other land management agencies, counties, and private lands were added by the University of Montana, wildlife Spatial Analysis Unit, during 1995-1999. Since 1999, the Montana Natural Heritage Program has made numerous updates and corrections (especially to state trust lands, Montana Fish, wildlife & Park areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDS BLM and private enterprise. Lands depicted on this map represent single ownership of contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral base and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24000 or smaller.

Map produced July 2006 with ownership data current as of July 2006.
