SOURCES /ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept of Fish, Wildlife and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library in response to Montana Code Annotated §7-3-206, which directs the FWP to... work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps... in the State.

The public land data is from the MT Natural Heritage Program land ownership data collection. Much of the data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates were provided by the BLM and other agencies.

The private land data were developed for the Montana Cultural Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DMA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDI BLM and private enterprises. Land depicted on the map represents single ownership of contiguous parcels that are at least 40 acres in size. The DMA maintains the GIS cadastral layer and the DOR maintains the private ownership information.
