- Wildlife Management Area

SOURCES / ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (DFWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated §7-3-309, which directs the DFWP to work cooperatively with all state and federal land management agencies to develop accurate land ownership maps... in the State.

The public land data from the MT National Heritage Program land stewardship data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:50,000 scale BLM Surface Management Data maps. Additional information, corrections and updates (especially for BLM lands and private lands) were added to the National Heritage Program data maps. The data is current as of 1998. Since 1998, the Montana National Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife, and Parks areas, USFWS & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts. Land has not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through cooperative efforts between the Montana Department of Administration (MDA), the Montana Department of Revenue (DOR), other state agencies, local governments, USFWS, and private enterprises. Land parcels on this map represent single ownership of contiguous parcels that are at least 40 acres in size. The DOR maintains the GIS cadastral and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:60,000, though many of the recent data incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24,000 or smaller.

Map produced September 2007 with ownership data current as of August 2007.
