SOURCES / ACKNOWLEDGEMENTS
 This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in cooperation with the Montana Department of Administration (ODA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDI BLM and private enterprise. Land data on this map represent single ownership of contiguous parcels that are at least 10 acres in size. The ODA maintains the GIS database layer and the DOR maintains the private ownership information.
 The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of the data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Data maps. Additional information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, Wildlife Spatial Analysis Unit, during 1998-1999. Since 1999, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These areas are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.
 The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (ODA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDI BLM and private enterprise. Land data on this map represent single ownership of contiguous parcels that are at least 10 acres in size. The ODA maintains the GIS database layer and the DOR maintains the private ownership information.
 The base scale for the public ownership data is 1:100,000, though many of the recent cadastral ownership data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24,000 or smaller.
 Map produced September 2007 with ownership data current as of August 2007.
