SOURCES / ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept of Fish, Wildlife & Parks (MFWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated 87-3-308, which directs the MFWP to "...work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps... in the State".

The public land data is from the MT Natural Heritage Program land ownership data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates (especially for state lands, and private lands) were added by the University of Montana, Wildlife Spatial Analysis Unit, during 1998-1999. Since 1998, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperation between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USO/BLM and private enterprise.

Land parcels on this map represent single ownership of contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps of survey data. Private ownership data is accurate to scale of 1:24,000 or smaller.

Map produced September 2007 with ownership data current as of August 2007.
