NOTES:
 Not all legend items may appear on this map. Features shown on this map do not imply public access to any lands. The land status data displayed on this map may not be complete and may contain errors in boundary locations and/or coding.

DISCLAIMERS:
 The MT Natural Heritage Program, MT Data Library, MT Dept. of Administration and MT Dept. of Revenue make no representations or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assumes no responsibility for the suitability of these data for a particular purpose. These agencies will not be liable for any damages incurred as a result of errors displayed herein. The ownership boundaries displayed on this map are not based on land survey data and are not a substitute for property surveys. This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGEMENTS
 This map was produced as a joint effort between the MT Dept. of Fish, Wildlife and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT Data Library. In response to Montana Code Annotated §7-3-206, which directs the FWP to "...work cooperatively with all state and federal land management agencies...to develop accurate land ownership maps...in the State."

The private land data were developed for the Montana Caddisfly Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (ODA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDBLM and private enterprise. Lands depicted on this map represent single ownership of contiguous parcels that are at least 60 acres in size. The DOR maintains the GIS cadastral layer and the ODA maintains the private ownership information.

The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management data maps. Additional information, corrections and updates (especially for BLM lands and private lands) were added by the University of Montana, Wildlife Species Analysis Unit, during 1996-1998. Since 1998, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These additions are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The base scale for the public ownership data is 1:100,000, though many of the recent cadastral maps are digitized from 1:24,000 scale maps or survey data. Private ownership data is digitized to scales of 1:24,000 or smaller.

Map produced September 2007 with ownership data current as of August 2007.
