SOURCES/ACKNOWLEDGEMENTS:
The map was produced as a joint effort between the Montana Department of Natural Resources and Conservation (DNRC) and the Montana Department of Fish, Wildlife & Parks (MFWP). The DNRC provided the parcel ownership data, and the MFWP provided the map design and layout. The DNRC is not responsible for any errors or omissions in the data.

The public land data from the MT Natural Heritage Program land ownership data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:50,000 scale State Surface Management Plans. Additional information, corrections and updates (especially for tribal lands) are provided by the BLM. The DNRC is not responsible for any errors or omissions in the data.

The base data for the public ownership data is 1:50,000 scale, though many of the parcels are smaller than 1:50,000 scale maps or survey data. Private ownership data is accurate to scales of 1:25,000 or greater.

Map produced September 2007 with ownership data current as of August 2007.
