

Private Land Ownership Identification

WINIFRED - (47109b)

NOTES:

Not all legends may appear on this map. Features shown on this map do not constitute an offer of insurance or any other financial product. The land status data displayed on this map may not be complete and may contain errors in boundary locations and/or coding. DISCLAIMER: The MT Natural Heritage Program, MT Dept. of Administration and MT Dept. of Revenue make no representations or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assumes no responsibility for the suitability of these data for a particular purpose. These agencies do not warrant that any damages incurred as a result of errors displayed here. The copyright boundaries displayed on this map are not based on land survey data and are not a substitute for properly surveyed. This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGMENTS

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to a Memorandum of Understanding (MOU) between the FWP and the NRIS. The FWP provided the land ownership data, and the NRIS provided the GIS capabilities and the map production. The FWP and NRIS are committed to working cooperatively with all state and federal land management agencies, to develop accurate land ownership maps, in the State. The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of the data was digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates (especially for tribal lands and private lands) were added by the Montana Natural Resource Information System Unit, during 1998-1999. Since 1999, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks area, US Fish & Wildlife Service areas, and conservation easements). These updates are based on data supplied by the various public agencies and land trusts, and the BLM maintains the private ownership information. Map produced September 2007 with ownership data current as of August 2007.

Private land data were developed for the Montana Cadastral Database Project.

These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDI BLM, and private enterprise. Lands depicted on this map represent single ownership of contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information. The base scale for the public ownership data is 1:100,000, though many of the recent data incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24,000 or smaller. Map produced September 2007 with ownership data current as of August 2007.
