SOURCES / ACKNOWLEDGEMENTS
This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to a Montana Code Annotated §7-2-206, which directs the FWP to "...work cooperatively with state and federal land management agencies...to develop accurate land ownership maps...in a State".
The public land data from the MT Natural Heritage Program land ownership data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management System maps. The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), and other state agencies, local governments, USGS BLM and private enterprises. Land is divided on this map to represent single parcels of land ownership. Parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.
The base scale for the public ownership data is 1:100,000. Though many of the recent cadastral data were digitized from 1:24,000 scale survey data. Private ownership data is accurate to scales of 1:10,000 or smaller.
Map produced September 2008 with ownership data current as of August 2008.
