NOTES:
 Not all legend items may appear on this map. Features shown on this map do not imply public access to any lands. The land status data displayed on this map may not be complete and may contain errors in boundary locations and/or coding.

SOURCES/ACKNOWLEDGEMENTS
 This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library. In response to Montana Code Annotated 87-3-304, which directs the FWP to work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps... in the State of Montana.

The public land data is from the MT Natural Heritage Program land ownership data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates (especially for BLM lands) and private lands were added by the University of Montana, Wildlife Spatial Analysis Unit, during 1998-1999. Since 1998, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These notes are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data was developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDOI/BLM and private enterprise. Lands identified on this map represent single ownership or contiguous parcels that are adjacent to each other. The DOA maintains the DOR cadastral layer and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000. Roughly many of the recent orthorectified data (from 1:24,000 scale maps or survey data). Private ownership data is accurate to scales of 1:24,000 or smaller.

Map produced September 2008 with ownership data current as of August 2008.
