NOTES:
Not all legend items may appear on this map.
Features shown on this map do not imply public access to any lands.
The land status data displayed on this map may not be complete and may contain errors in boundary locations and/or coding.
DISCLAIMERS:
The MT Natural Heritage Program, MT State Library, MT Dept of Administration and MT Dept of Revenue make no representations or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assume no responsibility for the usability of these data for a particular purpose. These agencies will not be liable for any damages, including but not limited to, special, incidental or consequential damages, arising from the use of these maps. The ownership boundaries displayed on this map are not based on land survey data and are not a substitute for property surveys. This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGEMENTS
This map was produced as a joint effort between the MT Dept of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated §10-2-206, which directs the FWP to "...work cooperatively with all state and federal land management agencies...to develop accurate land ownership data...".
The public land data from the MT Natural Heritage Program land ownership data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates were provided for that data and private lands were added by the University of Montana, Wildlife Spatial Analysis Unit, during 1995-1998. Since 1988, the Montana Fish and Wildlife Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These data are based on data supplied by the various public agencies and landowners, and these not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DORE), other state agencies, local, governmental, USGS BLM and private enterprises. Lands displayed on this map represent a single ownership of contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DORE maintains the private ownership information.
The base scale for the public ownership data is 1:100,000. Though many of the recent edits incorporate data digitized from a 1:24,000 scale map or survey data. Private ownership data is accurate to a scale of 1:24,000 or better.
Map produced September 2008 with ownership data current as of August 2008.
