NOTES:
Not all legend items may appear on the map.
Features shown on this map do not imply public access to any lands.
This land status data is derived from the Montana Department of Revenue (DOR) and is not a substitute for a title search.
The ownership boundaries depicted on this map are based on land survey data and are not a substitute for a property survey.
This map displays public and private land ownership information derived from several sources and cannot be considered updated.

SOURCES / ACKNOWLEDGEMENTS
This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (MNRIS) of the MT State Library, in response to Montana Code Annotated 87-3-309, which directs the FWP to cooperate with the State Library and other state and federal management agencies... to develop accurate land ownership maps... in the State's...
The public land data from the MT Natural Heritage Program land stewardship data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:50,000 scale USGS Quads. The BLM and other state and federal management agencies... to develop accurate land ownership maps... in the State's...
Additional information, corrections and updates regarding public lands and private lands were added by the University of Montana, Wildlife Spatial Analysis Unit, during 1996-1998. Since 1998, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These updates are based on data supplied by the various public agencies and land trusts, and have not been verified against county of Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USGS BLM and private enterprises. Land parcels on this map represent single ownership of contiguous parcels that are at least 20 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent data incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24,000 or smaller.

Map produced September 2008 with ownership data current of August 2008.
