**NOTES:**  
Not all legend items may appear on this map.  
Features shown on this map do not constitute public access to any lands.  
The land status data displayed on this map may not be complete and may contain errors in boundary locations and/or coding.  
**DISCLAIMERS:**  
The MT Natural Heritage Program, MT Fish Library, MT Dept of Administration and MT Dept of Game and Natural Resources warrant the accuracy of the data contained in these maps and assume no responsibility for the suitability of these data for a particular purpose. These agencies will accept liability for any damages incurred as a result of reliance on these maps.  
The ownership boundaries displayed on this map are not based on land survey data and are not subject to the property survey.  
This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

**SOURCES / ACKNOWLEDGEMENTS**  
This map was produced as a joint effort between the MT Dept of Fish, Wildlife and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated 87-3-306, which directs the FWP to "... work cooperatively with all state and federal land management agencies, to develop accurate land ownership maps... in the State."  
The public land data is from the MT Natural Heritage Program land ownership data collection. Much of the data is originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates are provided by the Natural Heritage Program. The data was updated by the University of Montana, Wildlife Spatial Analysis Unit, during 1998-1999. Since 1999, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and cooperation easements). These data are based on data supplied by the various public agencies and land trusts, and have not been verified against current Montana Department of Revenue records.

The private land data were developed for the Montana Categorical Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDOI, BLM and private enterprises. Land parcels on the map represent single ownership parcels of at least 40 acres in size. The DOA maintains the GIS cadastral layer, and the DOR maintains the private ownership information.  
The base scale for the public ownership data is 1:100,000, though many of the reported acreage data are digitized from 1:25,000 scale maps or survey data. Private ownership data is accurate to scales of 1:25,000 or smaller.
