NOTES
 Not all legend items may appear on this map. Parcel numbers on this map do not represent access to any lands. The land status data displayed on this map may not be complete and may contain errors. Secondary roads are not coded.
DISCLAIMERS
 The MT Natural Heritage Program, MT State Office, MT Dept of Administration and MT Dept of Revenue make no representation or warranty whatsoever with respect to the accuracy or completeness of the data contained in these maps and assume no responsibility for the use of the data for any purpose. These agencies will not be liable for any damages incurred as a result of errors displayed here. The ownership boundaries displayed on this map are not based on land survey data and are not suitable for property surveys. This map displays public and private land ownership information derived from several sources and is not intended to be used as a legal document. The Montana Department of Revenue records are the source of the land ownership information.

SOURCES / ACKNOWLEDGEMENTS
 This map was produced as a joint effort between the MT Dept of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Office. It incorporates data from the Montana Department of Revenue (DOR), other state agencies, local governments, USGS, BLM and private enterprise. Land ownership data on this map represent single ownership or composite parcels that are at least 40 acres in size. The DOR maintains the GIS cadastral layer and the FWP maintains the private ownership information.
 The public land data is from the MT Natural Heritage Program land ownership data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Service Management Data maps. Additional information, corrections and updates are provided by the FWP and private landowners. The University of Montana, while digitizing the public land data, made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas and conservation easements). These data are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Revenue (DOR), the Montana Department of Parks and Recreation (MDPR), other state agencies, local governments, USGS, BLM and private enterprise. Land ownership data on this map represent single ownership or composite parcels that are at least 40 acres in size. The DOR maintains the GIS cadastral layer and the FWP maintains the private ownership information.
 The base data for the public ownership data is 1:100,000 scale. Though many of the recent cadastral data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24,000 or better.
