NOTES:
Not all legend items may appear on this map.
Features shown on this map do not imply public access to any lands.
The land status data displayed on this map may not be complete and
may contain errors in boundary locations and/or coding.
DISCLAIMERS:
The MT Natural Heritage Program, MT State Library, MT Dept of
Administration and MT Dept. of Revenue make no representations or
warranties whatsoever with respect to the accuracy or completeness
of the data contained in these maps and assumes no responsibility
for the suitability of these data for a particular purpose. These agencies
shall not be liable for any damages resulting from the use of data displayed here.
The ownership boundaries displayed on this map are not based upon
land survey data and are not a substitute for property surveys.
This map displays public and private land ownership information derived from
several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated 87-5-305, which directs the FWP to "...work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps...in the State".

The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 state BLM Surface Management Status maps. Additional public land data from the BLM, state agencies, counties, cities, towns, and private lands were added by the University of Montana, wildlife Spatial Analysis Unit, during 1996-1998. Since 1998, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, wildlife & Park areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USDI BLM and private enterprise. Lands depicted on this map represent single ownership of contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24000 or smaller.
