NOTES: Not all legends may appear on this map. Features shown on this map do not imply public access to any lands. The land status data displayed on this map may not be complete and may contain errors in boundaries, locations, and coding. DISCLAIMER: The Montana Heritage Program, MT State Library, MT Dept of Administration and MT Dept of Revenue make no representations or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assume no responsibility for the validity of these data for a particular purpose. These agencies will not be liable for any damages incurred as a result of errors displayed here. The ownership boundaries displayed on this map are not based on land survey data and are not a substitute for property survey. This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGEMENTS: This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated § 2-2-305, which directs the FWP to... work cooperatively with all state and federal and management agencies... to develop accurate land ownership maps... in the State's best interests. The public land data from the MT Natural Heritage Program land stewardship collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:50,000 scale BLM District Management System maps. Additional information, corrections and updates were provided by the BLM and private landowners. The private land data were developed for the Montana Cadastre/Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USGS BLM and private enterprises. Lands reported on this map represent either: 1) contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOA maintains the private ownership information. The base data for the public ownership data is 1:50,000 scale, though many of the recent data incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24,000 or smaller. Map produced August 2009 with ownership data current as of June 3, 2009.

USGS 100,000 Scale Quadrangle Index table showing coordinates and map numbers for the area. The table lists Township and Range coordinates (e.g., T10N, R38E) and the corresponding USGS map number for that area.
