NOTES

Not all reported items may appear on this map. Features shown on this map do not imply public access to any lands. These data are provided through a cooperative effort between the Montana Department of Fish, Wildlife & Parks (MFWP) and the Montana Natural Resource Information System (MNRIS) of the Montana State Library, in response to Montana Code Annotated 7-3-304, which states that MFWP "...with cooperation with state and federal land management agencies... shall develop accurate land ownership maps... in the State's Natural Heritage Program, MT State Library, MT Dept. of Administration and MT Dept. of Professional Services."

The public land data from the MT Natural Heritage Program land stewardship data collection. Much of the data was originally digitized by the Bureau of Land Management (BLM) from 1:50,000 scale maps. BLM's National Wetlands Inventory (NWI) data was used to identify wetlands. Additional information, correction and updates (especially for tribal lands) were provided by the University of Montana, Wildlife Service. The map displays public and private land ownership data derived from several sources and does not constitute a certified and updated.
