DISCLAIMERS:
The MT Natural Heritage Program, MT Fish, Wildlife & Parks Dept. of Administration and MT Dept. of Environmental Quality make no representation or warranties whatsoever with respect to the accuracy or completeness of the data collected in these maps and assume no responsibility for the suitability of these data for any particular purpose. These agencies, with the exception of the MT Dept. of Environmental Quality, do not warrant the accuracy of the information shown on this map, which is derived from various sources and is not subject to their property survey. This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

SOURCES / ACKNOWLEDGMENTS
This map was produced as a joint effort between the MT Dept. of Fish, Wildlife and Parks (DFWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library in cooperation with Montana Code Annotated 87-3-306, which directs the DFWP to "...work cooperatively with all state and federal land management agencies, to develop accurate land ownership maps... in the State."
The public land data is from the MT Natural Heritage Program land ownership data collection. Much of the data is originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates are provided by the Natural Heritage Program. Updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These data are based on data supplied by the various public agencies and landowners, and have not been verified against county or National Department of Revenue records.

The private land data were developed for the Montana Categorical Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USGS/BLM and private enterprises. Land parcels on this map represent single ownership parcels of at least 40 acres in size. The DOA maintains the GIS cadastral layer, and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the reported acreage are data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24,000 or greater.

Map produced August 2009 with ownership data current as of June 3, 2009.
