SOURCES / ACKNOWLEDGEMENTS
This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated § 2-2-208, which directs the FWP to "work cooperatively with all state and federal land management agencies... to develop accurate land ownership maps...".
The public land data from the MT Natural Heritage Program and ownership data management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates are provided for that data, and private lands were added by the University of Montana, while the State of Montana Fish, Wildlife & Parks added, since 1988, its Montana Fish, Wildlife, and Parks (MFWP) data. These data are based on data supplied by the various public agencies and land trusts, and have not been verified against county of Montana Department of Revenue records.
The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USFS, BLM and private enterprises. Land is depicted on this map whenever a unique ownership parcel number that is at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information layer.
The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24,000 or smaller.
Map produced August 2009 with ownership data current as of June 3, 2009.
