**NOTES:**  
Not all legend items will appear on this map.  
Features shown on this map do not imply public access to any lands.  
The land data displayed on this map may not be complete and may contain errors in boundary locations and/or coding.  
**DISCLAIMER:**  
The MT Natural Heritage Program, MT State Library, MT Dept of Administration, and MT Dept of Revenue make no representations or warranties whatsoever with respect to the accuracy or completeness of the data contained in these maps and assume no responsibility for the suitability of these data for a particular purpose. These agencies will not be liable for any damages incurred as a result of errors displayed here.  
The ownership boundaries displayed on this map are not based on land survey data and are not a substitute for property surveys.  
This map displays public and private land ownership information derived from several sources and continues to be corrected and updated.

**SOURCES / ACKNOWLEDGEMENTS**  
This map was produced as a joint effort between the MT Dept of Fish, Wildlife, and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library in partnership with the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USGS BLM, and private enterprises. Lands depicted on this map represent single ownership or contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.  
The public land data is from the MT Natural Heritage Program land ownership data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from a 1:50,000 scale BLM Surface Management Data map. Additional information, corrections and updates (especially for federal lands and private lands) were added by the University of Montana, with Social Analysis Group, during 1998-1999. Since 1998, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, local governments, USGS BLM, and private enterprises. Lands depicted on this map represent single ownership or contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOR maintains the private ownership information.  
The base scale for the public ownership data is 1:50,000. Through many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scale of 1:24,000 or better.  
Map produced August 2009 with ownership data current as of June 3, 2009.
