NOTES:
Not all legend items may appear on this map.
Features shown on this map do not indicate access to any lands.
The land status data displayed on this map may not be complete and may contain errors in location, accuracy, and/or coding.
DISCLAIMER:
The MT Natural Resource Information System (NRIS) is a web-based system that provides information on land ownership and management. The data is derived from various sources and is provided as a public service. The Montana Department of Fish, Wildlife & Parks is not responsible for any errors or omissions in the data. The user assumes all liability for any use of the data. The data is provided as a public service and is not intended to be used for legal purposes. The data is provided as a public service and is not intended to be used for legal purposes. The data is provided as a public service and is not intended to be used for legal purposes.

SOURCES / ACKNOWLEDGMENTS
This map was produced as a joint effort between the MT Dept of Fish, Wildlife and Parks (FWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library in response to Montana Code Annotated 47-2-206, which directs the FWP to "...work cooperatively with all state and federal land management agencies...to develop accurate land ownership maps...in the State".
The public land data is from the MT Natural Heritage Program land ownership data collection. Much of this data was originally digitized by the Bureau of Land Management (BLM) from 1:100,000 scale BLM Surface Management Status maps. Additional information, corrections and updates were provided by the BLM. Private land data was derived from the University of Montana, Wildlife Habitat Analysis Unit, during 1998-1999. Since 1998, the Montana Natural Heritage Program has made numerous updates and corrections (especially for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements). These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.
The private land data were developed for the Montana Cadastral Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Fish, Wildlife & Parks, local, state agencies, local, governments, USDI BLM and private enterprise. Land parcels on this map represent single ownership of contiguous parcels that are at least 40 acres in size. The DOA maintains the GIS cadastral layer and the DOA maintains the private ownership information.
The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24,000 or smaller.
Map produced August 2009 with ownership data current as of June 3, 2009.
