SOURCES / ACKNOWLEDGEMENTS

This map was produced as a joint effort between the MT Dept. of Fish, Wildlife, and Parks (DFFWP) and the Montana Natural Resource Information System (NRIS) of the MT State Library, in response to Montana Code Annotated 87-3-308, which directs the FWP to "...work cooperatively with all state and federal land management agencies to develop accurate land ownership maps...in the State."

The public land data is from the MT Natural Heritage Program land stewardship data collection. Much of this data has been digitized by the Bureau of Land Management (BLM) and the US Forest Service (USFS) as 1:250,000 scale BLM base maps.

Additional information, corrections and updates (especially for tribal lands and private lands) were added by the University of Montana, Wildlife Spatial Analysis Group during 1998-1999. The Montana Natural Resource Information System has no authority to update and correct data for state trust lands, Montana Fish, Wildlife & Parks areas, US Fish & Wildlife Service areas, and conservation easements. These edits are based on data supplied by the various public agencies and land trusts, and have not been verified against county or Montana Department of Revenue records.

The private land data were developed for the Montana Cadastre Database Project. These data are provided through a cooperative effort between the Montana Department of Administration (DOA), the Montana Department of Revenue (DOR), other state agencies, and the BLM and USFS. Private enterprise.

Lands depicted on this map represent single ownership parcels or private parcels that are at least 40 acres in size. The DOA maintains the GIS cadastre layer and the DOR maintains the private ownership information.

The base scale for the public ownership data is 1:100,000, though many of the recent edits incorporate data digitized from 1:24,000 scale maps or survey data. Private ownership data is accurate to scales of 1:24,000 or smaller.

Map produced August 2011 with ownership data current as of July, 2011.
